

## SPECIFICATIONS

JT1200D7F

Engine Type	4-Stroke, 4-Cylinder, DOHC, Liquid-Cooled
Displacement	1,199 cc
Bore and Stroke	83 x 55.4 mm
Maximum Horsepower	125 @ 7,200 RPM
Compression Ratio	11.2:1
Fuel Injection	DFI with 54mm Single Throttle Body
Ignition	TCBI with Digital Advance
Lubrication	Semi-Dry Sump
Maximum Thrust	827 lb.
Overall Length	122.8 in.
Overall Width	46.5 in.
Overall Height	41.3 in.
Dry Weight	737 lb.
Load Capacity	496 lb.
Storage Capacity	23.5 gal.
Fuel Capacity	16.4 gal.
Reserve Fuel Capacity	N/A
Oil Capacity	4.2 qt.
Colors (2)	Jet White/Candy Thunder Blue Jet White/Firecracker Red
Warranty	12 months
Good Times Protection Plan	12, 24, 36 or 48 months

(Specifications subject to change without notice.)

(KP) = See Kaw-Pedia section for more details.

\* = Changes from previous model year.

## Key Features:

- ◆ Dependable 4-Stroke Engine
- ◆ Digital Fuel Injection
- ◆ Smart Learning Operation Mode
- ◆ Kawasaki Smart Steering Equipped
- ◆ Stable Yet Sporty Handling

## ◆ 1,199cc 4-Cylinder, DOHC, 4-Stroke Engine

- Legendary Ninja®-inspired engine adapted for personal watercraft use.
- Chrome composite plated<sup>(KP)</sup> cylinders are lightweight, durable, and quickly carry heat away from the combustion chamber and piston for supreme durability at high power output.
- Semi-dry sump<sup>(KP)</sup> oil system.
- Tip-over protection shuts engine off if craft tilts more than 110°.
- Unique crankcase venting system prevents oil from entering the intake tract if the craft is capsized.

## 4-Valve Cylinder Head<sup>(KP)</sup>

- Better breathing for more power at high rpm.
- Boosts low-end torque.
- Provides maximum valve area for optimum flow.

- Special cam timing helps boost low-speed performance.
- Corrosion-resistant materials used for durability in marine environment.

## ◆ Digital Fuel Injection<sup>(KP)</sup>

- Single 54mm throttle body with injectors at each cylinder.
- Long intake tract enhances low-end power.
- Large capacity, low-noise airbox.
- Fuel pump has a built-in pressure regulator to simplify fuel line arrangements.

## Liquid Cooling<sup>(KP)</sup>

- Specially designed water jacket ensures cooling performance for watercraft application.
- Force fed from jet pump with inlet filter to prevent clogging.
- Water-cooled oil cooler helps regulate engine temperature.

## TCBI Ignition with Digital Advance<sup>(KP)</sup>

- Transistorized ignition uses a digital microcomputer to precisely control optimum ignition timing.
- ECU and ignition coils are waterproof.

## ◆ Smart Learning Operation (SLO) mode

- Activated by depressing the MODE button on the instrument panel, the Smart Learning Operation feature limits engine speed to approximately 5,800 rpm, which reduces maximum speed by approximately 30 percent so that unskilled operators can practice maneuvering the watercraft at reduced power until they become more familiar with its operation. When activated, SLO appears on the multifunction meter screen and FPO (Full Power Operation) appears when normal operation is selected.

## Water-Jacketed Semi-Dry Exhaust System

- Double-walled, water-cooled exhaust manifold provides efficient cooling and helps reduce noise.
- Water surrounding the exhaust system lowers engine compartment temperatures for more power.
- Semi-dry exhaust system keeps cooling water out of the exhaust before the waterbox to prevent water from entering engine if the boat should capsize.
- Dual waterbox mufflers lower noise and prevent water from reaching the engine.
- Reduced emissions meet EPA 2006 and CARB 2008 regulations.

## Fiberglass Hull

- Proven STX hull utilized.
- One-piece hull construction reduces weight.
- Special keel shape and strakes offer increased top speed and sharper handling.
- Gel coat for a deep, lustrous, scratch-resistant finish.
- Open rear deck for putting on skis, or carrying bulky items.
- Standard equipment ski towing hook.
- Integrated flotation cells help prevent sinking.
- Pulled-back handlebar helps create a comfortable riding position.
- Injection molded sponsons designed to provide responsive handling and increased stability.
- Front hatch made of lightweight ABS material for reduced weight, higher durability and enhanced appearance.
- Mirrors are mounted directly to the deck to help lighten hatch and enhance appearance.

## ◆ Kawasaki Smart Steering<sup>(KP)</sup>

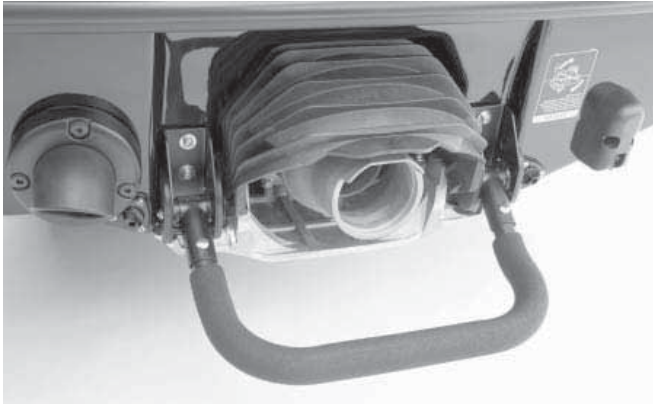

- A steering sensor is linked to the ECU to aid in boat handling when the throttle is quickly released at high speed.

## Reverse<sup>(KP)</sup>

- Injection molded plastic reverse bucket is durable and provides superb backing action.

**Retractable Boarding Step**

- Makes boarding from deep water easy.
- Retracts automatically.

**Direct Drive Axial Flow Pump<sup>(KP)</sup>**

- Three-blade oval edge stainless steel impeller for maximum efficiency, minimum cavitation.
- Zinc-based coating between aluminum pump housing and stainless steel liner helps prevent corrosion.
- Direct drive from engine to pump; no gear reduction unit. Engine turns lower RPM for less stress, wear, fuel consumption and vibration.
- Large rubber damper absorbs shock loads from the powerful engine and reduces driveline noise.

**◆ 2-Piece Seat**

- The seat is made up of two pieces for increased passenger comfort and more convenient access to the under seat storage compartment.

**◆ Versatile Storage**

- Large drainage hole with rubber plug makes easy draining of any water that reaches the front storage tub.
- Over four gallons under the seat, 19-gallon covered bow storage compartment plus a small storage box in front of the seat.

**Large Capacity Fuel Tank**

- More than 16 gallons for long cruising range.

**LCD Multifunction Meter System**

- Includes speedometer, tachometer, hour meter, clock, trip distance, trip time, and fuel level.
- Warning lights alert you to low oil, low fuel, high water and oil temperatures, low battery voltage, or fuel injection troubles.

**Authentic Kawasaki Accessories**

- See the current applicable Kawasaki accessory catalog or [www.kawasaki.com](http://www.kawasaki.com) for all of the latest Authentic Kawasaki Accessories available for this model.
